Re: Stewart Gulch Water District 63S

Dear Garnette:

As follow-up to the special Stewart Gulch meeting held October 24, 2002, enclosed is an Adopted Budget Form for the December 5, 2002 meeting.. The following are also some ideas on how to find a possible watermaster.

Sources that may be able to provide suggestions for qualified watermaster candidates include:

Ken Neely, IDWR Technical Hydrogeologist, 327-5455
Dan Tomich, IDWR Planning Engineer, 327-5440 (also former Bureau of Reclamation Engineer)
John Beal, Retired IDWR Groundwater Protection Manager, 336-1259
Bob Sutter, Retired IDWR Hydrology Manager, 327-7989
John Mitchell, Retired IDWR Geothermal Specialist
Sheryl Howe, Former IDWR Hydrology Specialist, 389-1371
Janet Crockett, Former IDWR Sr. Water Quality Analyst, 344-9696
Ed Squires, Hydro Logic Inc., 342-8369
Terry Scanlan, Scanlan Engineering, 383-4140
Chuck Brockway, Brockway Engineering, 208-736-8543
David Shaw, ERO Resources Corp., 373-7983
Steve Hannula, ERO Resources Corp., 373-7983
Sherl Chapman, Retired Consultant, 208-484-9339
Spencer Wood, BSU Geo Science Professor, 462-3629
Annette Campbell, USGS Water Monitoring Director, 387-1317
Ivalou O'Dell, USGS, 387-1325
Maree Rae Larsen, USGS, 387-1396
Joe Spinazola, Bureau of Reclamation Hydrogeologist, 378-5155 (also former USGS Hydrogeologist)

Another avenue may be contacting local chapters representing professional organizations for geologists, engineers etc. You may also consider contracting the job with a local environmental/engineering firm.

I hope this information helps the advisory committee in their search for a new watermaster for Water District 63S. Please let me know if I can be of further assistance Garnette.

Sincerely,

Lori Graves
Sr. Water Resource Agent
