WATER RESOURCES  
WESTERN REGION

July 16, 1997

To all Water Users

As of this date the Water Master budget has been exhausted on call outs for calendar year 1997. We will conform to our previous resolution that all Water Master call outs after the \$700 budget has been used will be paid by the water user calling out the Water Master. The \$50 Water Master call out fee will be sent to the Sec./Treas the same calendar month you requested the Water Master's services. This will allow the Water Master to be paid the 10th of the following month.

Please be prompt in your payment of this \$50 for the Water Master because there is no money in the account or any source of money to pay for any further call outs. We must pay our Water Master in a timely manner so we will not lose his services.

Suggestions or objections to this manner of providing Water Master services after our budgeted funds have been exhausted should be put in writing for our next meeting of the water users and mailed to me.

Sincerely,

*Robert Hall*

Robert Hall - Sec./Treas.
