RE: DAILY MONITORING OF COLD SPRINGS CREEK

Dear Ms. McCallister:

In my letter to you on May 23, 2000, I instructed you to monitor Cold Springs Creek on a daily basis. We have received a letter from Jim Chambers of Half Moon Ranch and Dan Nelson received a telephone call from Elsie Riggs, secretary of Water District 61C. Both of these individuals stated that there was no longer enough water in Cold Springs Creek to deliver to the water users of Water District 61C. Therefore, from the date of this letter you will no longer be required to deliver water on a daily basis. You will still need to be available to deliver the waters of Cold Springs Creek if the flow of the creek should increase during the irrigation season.

In order to complete our records on the original complaint from Half Moon Ranch, our office will need copies of your log book showing the dates, times, and the measurements taken at each point of diversion. You will need to keep and maintain the original logbook until the end of the irrigation season, at that time you will need to send in your logbook to John Westra in this office.

If you have any further questions please contact Dan Nelson or me at the above address.

Respectfully,

Gary Spackman
