Dear Alan:

This is to document illegal diverted water use by John McCallum on the old Walker, - McCreo, Ranch at the head of Cold Springs Creek. The water was never put back in the creek after irrigation season. It was diverted across west to the Hat well field. Also it was and is being run into a large pond and Gravity flow under the County Highway to a large field of Gravel.

This is to damage everyone below him and keep us from our right to use flow from Cold Springs Creek.

We have an early flood right that is not being honored.

Hope you can help us out.

Thank you
Elise M. Reggs
