RE: THE 1ST MEETING OF THE BASIN 71 SUB-WATER DISTRICT

Dear Water User:

This letter is sent to notify you that the newly-created Basin 71 sub-district will hold a special meeting of water users at the date and time shown below. The Director of IDWR has called this special meeting pursuant to Idaho Code § 42-605(11) so users can elect a watermaster and adopt a budget and resolutions to fund and govern the operation of the sub-district in 2009. You are receiving this letter because IDWR records show you are an owner of one or more water rights within Basin 71 that will be administered and assessed by the new sub-district.

The meeting has been scheduled as follows:

When: Tuesday, June 9, 2009 at 2:00 P.M.

Where: Stanley Ranger Station – Basement Conference Room

On December 11, 2008, the Director of IDWR signed an order creating Sub-district No. 71 within Water District No. 170. That action enabled the users in Basin 71 to hire and fund a local watermaster to deliver water, and relieved them of the costs associated with funding the Water District No. 170 Watermaster for measurement and reporting. As a sub-district, the users must hold an annual meeting each spring to elect a watermaster and to adopt a budget and resolutions to fund and govern the operation of the sub-district. Because the sub-district is newly-formed, and because many of the users reside in the basin only during the summer, an annual meeting was not held this spring. The purpose of this special meeting is to address district business normally accomplished at an annual water district meeting.

A steering committee composed of local water users met with IDWR during March and April 2009 to develop a proposed budget and set of resolutions, and seek candidates for watermaster. The proposed budget and resolutions developed at those meetings are attached to this letter. Users attending the meeting will be asked to vote to adopt a budget and resolutions, either as proposed or as amended by users at the meeting. The attached agenda for the meeting provides some additional information that may be useful to consider prior to the meeting.

The proposed budget to operate the sub-district for the 2009 season is \$8,400. The budget will be collected from the users in sub-the district. Each user in the sub-district will be assessed a proportionate share of the budget based on an estimate of the water expected to be delivered. **Your portion of the proposed budget is \$ 50.00.** That portion is based on a usage estimate for water rights for which you are shown as an owner.

Your water rights and total estimated usage are as follows:

Water Right Number(s) – 71-34B

Total Estimated Usage (24-hr cfs) – 26.00

Please review the list of water rights shown above. If you do not own or have the use of one or more of the water rights shown, or if the water right appears to be in a previous owner's name, please contact me prior to the annual meeting and a revised billing estimate will be prepared for the meeting. Following the annual meeting, an amended assessment will be prepared and sent that reflects the budget and resolutions actually adopted at the meeting.

Questions, concerns or needs related to the scheduled meeting may be directed to Nick Miller by calling 208-287-4956, or by e-mail at Nick.Miller@idwr.idaho.gov. You may also contact Bob Foster at the IDWR Field Office in Salmon, Idaho at 208-756-6644, or by e-mail at Bob.Foster@idwr.idaho.gov.

Sincerely,

Nick Miller, P.E.

and Watermaster for WD170

It is herewith resolved that, in accordance with Idaho Code § 42-612 (5), the assessment amount for each user as shown in the 2009 adopted budget shall constitute a final determination of the amount due for 2009.

LIST OF SUB-DISTRICT NO. 71 WATER USERS, ASSOCIATED WATER RIGHTS, ESTIMATED USAGE, AND ESTIMATED 2009 ASSESSMENT

Note that this proposed budget is based on the proposed \$8,400 total and assumes a minimum assessment of \$50. Any user that diverts less than approximately 388 24-hr second feet (equal to about 770 acre-feet) will be assessed \$50. Your usage estimate is based on your water right diversion rate and/or volume limit and an assumption of number of days diverting. The usage estimate for billing in future years will be based on actual measurements when such measurements become available.
