Re: Measurement and Control Workshop

Dear Water User,

The Idaho Department of Water Resources (IDWR) will conduct a one-day workshop on April 6, 2007 at the Mountain Village Hotel conference room in Stanley, Idaho. The workshop will focus on issues surrounding installation of controlling works and measuring devices in Water District No. 170. An agenda is attached that gives the time and location of the workshop and an outline of topics to be covered. The workshop is primarily intended for those water users that must comply with the February 20, 2007 order requiring controlling works and measuring devices in Water District No. 170, but is open to other water users as well.

If you have any questions regarding this workshop, please contact Tim Luke, Nick Miller or Christine Roberts at 287-4800, or e-mail us at christine.roberts@idwr.idaho.gov. If you have a disability or require special assistance, please notify IDWR by April 2nd so we can meet any specific needs.

Sincerely,

A handwritten signature in black ink, appearing to read "Tim Luke". The signature is written in a cursive style with a large initial "T".

Tim Luke
