DEPARTMENT OF  
WATER RESOURCES

Dept. of Water Resources  
322 East Front Street  
P.O. Box 83720  
Boise, Id.

To Whome It May Concern;

Recieved your communications re; requiring measuring devices and head gates in water district 170. This order requires users in basin 170, in basin 71 to submit plans for measuring devices etc.

We will not be able to comply with your time schedule as those of us with cabins on Goat Creek will not be able to get together until probably July 1, 2007, as people are not available until then. We will need to have time to organize and will need some profession advice from you people before a plan can be made.

This is to inform you of this situation.

Sincerely

*Kathryn Goodwin*  
*David, Diana, Deborah Goodwin*
