Dear Tim,

I thought I would just follow up our conversation in your office on May 7, 2007, with a letter to keep the ball rolling on meeting compliance of the order requiring control and measuring devices on all diversions in Water District 170.

I will be handling the following diversions in basin 71:

Elk Creek: EC1, EC2

McGowan Creek: water right 71-39a

Park Creek: PKC1

Valley Creek: VC2/3, VC4, VC5/6

As we discussed in your office I have some questions on a few of these diversions which may be best answered after a visit by Nick Miller. You had mentioned that Nick might be available the last week of May or so. My schedule is quite flexible, so when Nick is available for a little tour of these diversions, I can be reached at [davemuscavage@hotmail.com](mailto:davemuscavage@hotmail.com) or 208-774-3417

Sincerely,

David Muscavage
