Re: February 20, 2007 Order Requiring

Greetings:

This letter responds to a phone call from Mr. Dmochowski indicated that only the water rights that their rights are below the 0.24 cfs on the property requiring controlling works and measuring devices. Appendix A had listed the Hicks/Norton water rights from the same well and were therefore subject to the same order.

I visited the two properties on July 26, 2007. Both are irrigated from separate wells. I noted the water rights using a global positioning device. I have identified separate diversions.

Since each diversion is below the water rights 72-7456, 72-11764, and 72-11764 Section 28, Township 13N, Range 19E, the 2007 order requiring controlling works applies to these water rights.

Please feel free to contact me if you have any questions.

Sincerely,

Nick Miller
Water Distribution Section
