DEPARTMENT OF WATER RESOURCES

To: State of Idaho Dept of Water Resources
P.O. Box 83720
Boise, ID 83720-0098

This letter constitutes a petition for reconsideration of your Order Requiring Measuring Devices and Headgates in Water District 37, Croy Creek and Tributaries concerning Water Right # 378858 (a non-consumptive right for 0.13 cu. ft.).

It is used to produce a maximum of 600 watts of un-rectified AC electrical power (for my home) by putting water in a 6" PVC pipe and running it downhill (below grade) for 240 ft. to accumulate 11 ft. of "head", or pressure, to turn a micro-hydroelectric generator where it is returned immediately to the creek.

There is no electricity to power an electrical measuring device anywhere nearby, (the house is located over 1000 ft. from the generator), and a mechanical measuring device would create an unacceptable restriction to the proper operation of the generator.

Please grant an exception to Water Right # 378858, from your Order Requiring Measuring Devices and Headgates in Water District 37, Croy Creek and Tributaries.

Feel free to call me for any questions, or additional information concerning this matter.

Thank You,

Scott Kimmich
