SUBJECT: Ted Sorenson (Bed Loss Test???)
(On Birch Creek)

ON APRIL 9TH 1996 A Bed Loss Test of somekind was started by Ted Sorenson. On April 10TH 1996 our stock water failed to reach our Cattle due to Ted Sorenson diverting water above us and restricting our flow.

We had our flow set to the right amount at the time. This cost us alot of time going after more water at our diversion, plus a loss of water for our cows, also fixing fence which the cows crawled thru trying
(over)

to find water from the ditch
coming into the field. In
submitting this to let you know
this was a injury to us and
our ranching operation -

Yours truly,

Mac Wayner
