RE: Field Visit to Consider Delivery Into the Bar S Ditch

Dear Interested Parties:

On Thursday, May 30, 2002, several parties met at the Southern Regional office of the Idaho Department of Water Resources to discuss the rate of flow diverted into Bar S Ditch. The discussion resulted in the determination that the next step should be a field review to investigate implementation options with the assistance of Mr. Steve Thompson of the NRCS.

This letter serves as an invitation for the field examination. The purposes of the examination are to (1) review diversions from the ditch by users who were not included in the Kramer stipulation, (2) estimate ditch capacities, and (3) explore pipeline installation options. **The meeting has been scheduled to be held on Tuesday, June 18, 2002 at 1:30 p.m. at the head of the Bar S Ditch.**

We look forward to seeing you at the field examination.

Sincerely,
