RE: WATER MEASUREMENTS

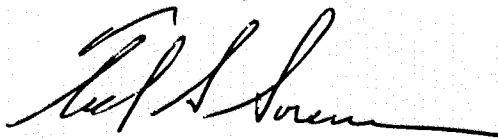

Dear Mr. Shenton:

This letter is written to request:

1. The average flow over the Wagoner weir for the month of October and the flow over the weir as of the first of November. If the flow is reduced below 4 cfs prior to the first of November, I would like to know the date.
2. A copy of the third or last USGS bedloss measurement, if taken.
3. As of the first of November, I would like to request a measurement on how much water is being diverting by Newman from Willow Creek.

Thank you.

Very truly yours,

Ted S. Sorenson
