RE: Response to letter dated 10/26/98

Dear Mr. Sorensen,

1. The Wagoner weir has average 4.00 c.f.s. throughout the month of October and on November 1st also.
2. Attached you will find a third stream bed loss report for U.S.G.S. on Birch Creek's lined reach.
3. As to the Newman water diverted from Willow Creek, I found no waters diverted from Willow Creek of Mr. Newman at the upper reach. After talking to Mr. Newman, he said he had a small amount of water diverted for stock water on the low end by Highway 28.

Sincerely,

Gregory A. Shenton
Water Master

CC: Wagoner
Newman
