RE: Request for 2005 Delivery and Diversion Data for North Snake Ground
Water District Conversion Projects

Cindy Yenter
Watermaster
Water District 130
c/o Idaho Department of Water Resources
1341 Fillmore St., Ste. 200
Twin Falls, Idaho 83301

Dear Cindy:

The District would like to inform you that it has received your letter and it is being reviewed by the Board. I am in the process of working to obtain the information you have requested. The District will contact those conversion participants who may have North Side shares appurtenant to the conversion acres to obtain information the Department has requested in that regard, and will provide that to the Department when received.

I will be providing you the information of the amount of water that was rented by IGWA and delivered by North Side in 2005 to the conversion projects; this information first needs to be prepared into a report that will also include the information on any ground water diversions that occurred to the converted acres in 2005.

I have contacted the members who have participated in the conversion program and requested their well measurement information for the 2005 irrigation year. I have asked them to have all this data into the District office by December 6th. I am planning on submitting the data to your office shortly thereafter, once I have had a chance to prepare a report with all the data.

Thank you,

Angelina M. Leavitt
Secretary/Clerk
North Snake Groundwater District
