Jack - The forms are on the way. Make as many copies as you like. Since you are appointed as watermaster, a ditch rider hired as contract labor can work under your authority without being appointed. There is probably no harm in having him take the oath, however. Hope has something to deliver this year.

Jim:

I have hired a Ditch Rider that will be working the Garden Creek & Challis Creek drainages for us this irrigation season. His name is Mark Lupher and he will be starting in the next week or so. I find I do not have any more blank Oath of Office forms. Would you please forward me a few so I have one he can complete, have notarized and return and a few for our file (for future needs). Thanks!

Jack
