Concerning the water delivered in Water District 41 in 2006

The tradition of letting the ditches take all the water they wanted continued this past year. Water was a little short in May but after starting to adjust the ditches it rained and I was able to let the ditches take about all the water they wanted until the middle of July. Then with some small adjustments through July and by Aug. Most ditches still had plenty of water. I started pulling locks in Sept. The fire crews did pull water out of the creeks and since all water was being delivered for use they paid .01 per gallon for it. This will be credited back to people in the upcoming years.
