REMARKS

~~March~~ March and April due to the undue
moisture - did not get up to diversion
to turn the Irrigation to 65-Ranch
May 3rd - The water was traveling down
main Channel which again contributed
to excessive water arriving at Barrett
ditch and all of the flooding of meadows
in addition to all the moisture that was
drugging from the Shoshone plus free irrigation
of pastures.

Name of Preser Owner		REMARKS
Mahoney, Fred	Antone Creek has no	storage area. if left in its Channel water
Broadhall	end up filling Smeyer's #1	#1 & 2 ponds overflow into Summit Creek
March	below the Smeyer Reservoir	and continue on to Howell. Again the
April	water was kept up on land	of about Clarks Ranch and Hawkes
May	therefore the change of Sm	gation is more pronounced on tract
June	Clark - It is a rotation	of 15 days Clark; 5 days Hawkes
July	water did end up in bu	nrow pit at bottom of Clarks property.
August	and did make it to Sm	yer's #1 & 2 pond for a very short
September	time.	
October		
	7/8 Joe Pittman started re	^{Rose Creek} routing or channeling water down burrow
	to along Hwy 77 - 2 ans	able to get his attention and mooses - discontinued
Mahoney, Larry	Rose Creek	
" Rose Creek	above and another 75"	" flushing through the old Hurst and
March	onto Goodmans & Leray	Robinson & Chatham ranches
April		
May	5/27 Channell still running	real good to old homestead along with a additional
June	help from Howell Creek over	flow dropping in est additional flow of 100 CFS back
July	of problem in damming Hay	at Chathams & Robinson
August	6/27 Re-evaluated what was	on Rose Creek - estimated about 125" with
September	75" going straight thru to old	lim stand - since there's no measuring device
October	it really gets to be a problem	- were into 6 years since moose was given
	a measuring device - He has	done nothing as to placing one in designated
	area.

REMARKS

Rose Creek. I didn't actually start charging Moose Mahoney for water until 4/18. Never did give me a call but when he started working burrow pits and so forth my physical inspection showed that he had been irrigating long before the 4/18 but that's where I am setting the date.

Dwight L. Lamm

9/1 shows approximately 25-30 inches and it's really not doing anything. Has not moved very far over the last week I therefore am calling that amount of water ~~has~~ doing beneficial work.
