REMARKS

Notes:

2/23 Dubbed w/Pat McCannan. They are going with a Engineer for doing a check on changing the Allen's diversion made on Lind Creek at 68 Ben/Robinson diversion.

3/29 All cricks are up - getting a continuous flow off of Marsh crick along road (burrow pit) at T. Group my plug at Indian upper meadows still holding.

As of 3/31 Lower 65 Ranch had no water out. Not Bird they called for water.

Name of Preser Owner	REMARKS
	4/4 Rained all during the night and trying to snow this AM, after checking water left for Twin Falls to deliver remaining logs to IDWR - Also picked up Turbo Tax program plus Dr. J's cutty.
	4/5 saw Lynn Taylor at Anderson Slip, said that possibly next week testing section (Anderson Ranch), power to a couple of hrs. Have maybe 12-15 inches going on spillway to Snake River, all water has been going to filling Reservoir for 1st time.
	4/12 So far 65-Ranch below has yet to call for water very surprising for this time of year.
	4/13 Snowed and Rained real hard and the wind is blowing - blowing -
	Started their annual call for water 3 permits, 1 at Anderson Slip & 1 (East of Marks House)

5/4 raining lightly on and off

5/26 5 p.m. below!

65 Ranch -

5/9 turned bath down to 5

18

NOTE — Figures to be given in cubic feet per second for 24-hour periods, or 24-hour second feet. Give name of owner of water rights, not tenant.

REMARKS

5/5 Rained during the evening (Real hard) at about 18:30 hrs - all thru the night - Creek up

5/6 Rained during the night and morning -

5/9 Found problem on Marsh Creek just above the 'H' water is going over bank of Creek running East and back into delivery ditch of Starb - turned down dam to 34/18

5/16 At approximately 04:30 AM I was on the Creek at 5:40 AM and Creek was bursting over banks in the Canyon. All creeks up but Howell or East side of Valley was okay - but everything started to build up - This looks like a 2nd flood coming - worked all day - 8:30 - 15:30 hrs trying to get upper Marsh cleared of debris - broke Hydraulic hose on backhoe - had to go to Town - Full, shy is getting black - Got back to Albion 17:30 hrs.

College Creek started flowing, The lower Valley (City of Albion) starting to get water from above Streams!

5/18 Sand Creek (Barry Bridge) flooded, marsh on 1000-3/9003 flooded - Bridge out if you need write up - Contact Don Gunderson for Rest of results on this flood -

5/11 Nothing but a mess, getting Chels
at bath house and on cell - I was out at
05:35. Betty called what could I do in
turning water - she was being flooded -
told she is on main creek (marsh). I said
I had no means of diverting the water but
would check out. Raining like heck - I was
out the previous evening till 21:00 hours
checking problems out. Up above water,
going down Emory Road and across bridge
plus creek doing same - all water returned
to merge of both Grand Marsh Creek - at
1000S / 900S the water was flooding over
road into Dufferensons on down to the City
extreme limits - running over roads at 1050E
down 900S - had to cut a route on South Side
of 900S, for water so as not to flood homes
on north side of road -

Partly to woodland homes are surrounded by water and bridge/Road is washed out. I informed Pat McLammon a lot of water was headed his way - Lower 65 Ranch - Marsh Creek Bridge I had water running over the Bridge plus I had a weed develop that was about 110' wide going over Road from 1" - 8 1/2" in depth - The Storm on 5/11 I estimated at the Narrows somewhere around 311.6666 CFS plus !!! off of Marsh, Land primarily - There was a Lady - 1 Second Storm Rained like 'Hell' (5/12 - 5/15) was just getting things cleaned up when 5/16 rolled around and I was out in the Creek at 4:20 AM - We faced a bigger problem than what we had in 5/11 I have a detail report pertaining to Okavos Floods - 2005

REMARKS

I hung around the Narrows to see if the Creek had Crested and took pictures - Water did not go over East Bank but did lap over North Side of Parshall flume - 36" Highland at 210/36 or 38.35 CFS and the main Channel Weir - water up to 5th Corder Block from Top of Weir on 18'.

Name of Present Owner		REMARKS
65-Ranch (Cupp)		
GEARY, Tom B		7/14 Turned off T. heavy due to shortage of water
C		Other than Tom Geary calling for water
D		off of the Highland Channel B ² both Basin and
E		Anderson did not call for water — very
		unusual — But they did get a hell of lot of
Andersen, Wendy		free water due to the flooding — !
		7/18 Rec'd phone call from R. Mahoney — She
		did it again! diverted water in City (Bun) &
		approached the Roddy (Pam) she denied she even
		touched the water — Informed Rich — I believed it
Montgomery, Geo		was her husband — turned water down for
Cooper, Kent late		delivery ditch repairs at 69-mound & City.
		did inform Mayor that he was going to have
Adams, Bret		to get with his City vehicles to adhere to
65-Narrow's Weir (m	7/1 Cynn had 9 pivots going.	the water laws.
(Fish ladder)		7/19 Notified Jeff Chaburn to be ready
Rock Dam Slip		for water cut if the Creek continues to drop.
Highland Ditch.		7/26 Inspected the lower Ranch, can't figure
Anderson Slip		out why we are losing ground on storage, with
TOTAL CFS USED		what pivots are running and deep well requiring
		slip & running on lower Res. 6 pivots running
		7/28 No water going over lower ^{Pers} spill way
		on 69 — The lease of water has got to be

Evaporation at the dam!!

Month of

REMARKS

Hopefully the following three months will prove that with the new storage below will help the users before the season closes.

Name of Present Owner		REMARKS
	8/25	Ruined a little bit during the night.
	8/8	Had meeting w/ Pat McCammon on weirs and measuring devices at the Narrows. He stated they had just been in at Narrows and stated that the weir was right on and about a 84" lost due to evaporation. At the Rock dam Slip I suggested that a measuring device needs to be placed there and I be alert.
	8/14	Delbert talking like meadows is a secondary to his traveling schedules at this point of time.
	8/15	Delbert clearing channel to creek (marsh) at 16:00 hrs turned him 50" total (100 CFS) at 8 AM - ^{Starting Creek}
	8/16	Started raining around 11:00, still raining around 15:30 hrs. Have water going over Rock dam Slip very slightly = 1st - 15 CFS
	8/17	Still raining - Creek has increased -
	8/31	Well it looks like I have to pull Grant off a 100%. This will shut Howell Creek completely to field 2 & 3 right below. Currently have 75" measured at Chotburn/Howell.

8/19 - 8/25 Had the following for backup
on the Creek. During my National Convention
with the American Legion - Don Danner in case
of emergency, Leo Montgomery Marsh, Creekside
Ron Sorensen overall assistant WM. I only
have water out at murrells-68, Ben Chatburn
and Creek only at Robinsons, remaining to
furnish 2nd & 3rd night if any - 65 Ben has
been off since they lost their harvest. Taking
water from Well if they need moisture on
the 2 - pivots.
Hawell Creek - Anderson / 65 below -
Note: Leo Mtg. handles the Vaughn program
(65 Murrell & Chatburn).
Ron Sorensen takes readings at the Narrows
Don Danner - In case of emergency -

REMARKS

9/20 met with Terry Blau, Pat McCannan and Chris at the Narrows. going over sitting Pundo. Jerry and I proceeded to Allen's for review of marsh cr. change. Bachlor was there but no actively proceeded to Upper Marsh Creek at Port Adams - went through needed Chris for cleanup of Creek bed, went through everything with Bret. Need to get a meeting of those involved from McDaniel's to John Burrows. It will be noted nothing further was done with Creek. All talk I believe! Wait and see what happens come Spring -
