RE: Preliminary Order Requiring Measuring Devices and Controlling Works from Diversions
on the Cub River and Tributaries, Including Worm Creek and Tributaries, Water District
13-A, dated August 31, 2010

Dear Mr. Owen,

I would like to acknowledge my conversation with Mrs. Owen on December 6, 2010, relevant to the requirement for Measurement Devices on certain water rights diverting from Worm Creek. I confirmed that the point of diversion for right 13-7657 will be exempt from the Measuring Device Order mentioned above. Water Right 13-7657 authorizes diversion of water from Worm Creek to a stock trough only and is not authorized for any other use.

Thank you for calling this to my attention and if you have further questions don't hesitate to call.

Sincerely,

Tim Luke
Water Distribution Section Manager
