RE: _____

Elsie Riggs - 366-2909 - Meeting notice received

Discussed that IC 42-605 21 day lead time for meeting
notice and notices sent by IDWR. Mrs. Riggs stated
she had contacted users by phone and they had agreed to
date as the best - harvest coming other ranch work, good
time to meet. She sent notice on Tuesday 8/17/10.

I stated although the notice did not meet the code,
given the circumstances and the fact she had contacted
folks prior by phone, that would be acceptable. I discussed
if candidates would at the meeting. She stated waterusers
would bring the names with them to the meeting.

Discussed situation loss of watermaster. Lee stated
they really asked for it, by not getting qualified folks.
Asked if she had authority to place an ad in the paper
without calling a meetg. I said that would be certainly OK.

needed. Lee said there basically 3 water users that need
regulation. Maybe flows are low enough there will not
be a call. She will keep in touch.
