RE: Void/Disallowed Water Rights

Dear Mrs. Riggs:

During our discussion at the water district meeting earlier last week, you inquired about the status of the following water rights:

*61-7466 Dilworth Bennett Creek
The water right permit has lapsed—Void*

*61-344 Keys Cold Springs Creek
There has been no Adjudication Claim filed. The right is for placer mining, I would assume there is no current mining use. The right is forfeited unless someone by chance files an adjudication claim and is able to prove historic use.*

*61-10760 Anna Beth Bean
This right was disallowed in the Snake River Adjudication*

All rights are forfeited and should be removed from the District's records.

Also, enclosed is a printout of the current District water rights and ownerships from our data records. Please note the splits and combining of rights references on the list.

Should you have questions, please contact me at the Western Regional Office, phone 334-2190.

Sincerely,

A handwritten signature in cursive script that reads "John Westra".
John Westra, Manager

Enclosure: District water right summaries-Bennett and Cold Springs Creek, forfeited rights.
