be done to repair upper canal
& the lower canal

22.0 miles

5/21/11

put plastic in ditch above Corcills.
they widened ditch and cleaned on upper
canal, took concrete out of ditch on
Yan Tis place.

24.0 miles

5/23/11

opened Res very little, Mike Johnson
could use some water. (67A) opened
splitter so no water goes down upper
canal. (Craig is cleaning upper
canal) looks like Swick canal is
using water. Res is at 52'

38.0 miles

5/25/11

Sprayed upper Canal for weeds
(lots of weeds)

21.0 miles

5/30/11

Sprayed weeds on upper canal. let
water down upper canal. Leak at
Corcils & at Yantis? work on it wed,
shut Res Back down.

44.0 miles

5/1/11

Shut splitter clear down, put cement
in Yantis Leak (10 Bags) Leak at
Corcils came in 30 min after water
got there.

23.0 miles

6-4-11

opened Res 2 turns in morning
went back in eve. to see if leak
at Yantis still ok

44.0 miles

6-6-11

checked Yantis leak and Corcils
Leak opened Res 1 Turn.

11.0 miles

6-7-11

checked Leaks, opened Res $\frac{1}{2}$ Turn
Res is at 52' 8"

22.0 miles

6/9/11

Opened splitter to the lower
canal (need stock water)

22.0 miles

6/15/11

went to lower end every body
is using water - (lots of it)

21.0 miles

6/28/11

went to lower end, helped
Barkhart with leak above R Yantis.

32.0 miles

7/3/11

Leak at Yantis is still leaking
Res is close to being full

11.0 miles

7/9/11

Lower end is good - Allison
is full. went to w Barkharts, for
paper work. drain under dam is
Running about 1"

13.0 miles

7/10/11

Opened Res 1 full Turn covered
Had no stock water he could get

4.0 miles

7/23/11

got call from Dogle, head gate is locked, wants to see me at noon on Sunday. Says cant clean ditch thru Gossen w Bankhart is going with me

18.0 miles

7/12/11

water is fine, allison ditch is running full. lots going over at donart, Res is full

31.0 miles

7/16/11

Talked to T Gossen, looked at main splitter on Greys Cr. and ditch down to splitter. Looks good.

19.0 miles

7/20/11

water is 9" over shoulders on weir on little wisser. Greys Cr. 8" lots of water at lower end.

26.0 miles

July 22/11

got a call from D ogle (he was mad as hell) he can't clean his ditch thru to Gossen place, too much stuff in the way, want the Board & I to come look.

July 23/11

Picked up Burkhart & went to Ogles ward went along with us. looked at headgate I locked last summer. Joe Holmes said he would put in wiers for them. looked at splitter at Gossens we all thought the split wasn't right. Call water Resoarse & settel matter.

28.0 miles

7/26/11

sprayed weeds below dam. checked water in lower ditch. shut splitter down 3 turns talked to Dean Dunham about wier in mortiz, said he would put in right one. talked to Mike Johnson he could use more water, in lower canal.

Grey Cr. is Running $1\frac{1}{4}$ " opened
 Res $1\frac{1}{2}$ Turns, water is Running fine
 at Lower End. But going down fast.
 drain under Res dam is Running
 about 1" and is clear.

18.0 miles

7/29/11

opened Res 1 Turn. Mortiz dam
 washed out. Went to Council for parts
 for sprayer, went to Lower End,
 Lots of water down there.

7/30/11

Greys Cr. at $12\frac{1}{4}$ " willkerson
 Running full, Swine Running full
 Some water over Lower End. Under-
 wood is all But dry.

22.0 miles

7/31/11

Greys Cr. OK
 Stew is Running good. Looks Like
 Lots of water for upper End.
 Little wieser weir at 10"

26.0 miles

8/4/11

ogle Called he has got wier in
 place on his ditch, wants it undocked
 talked to him & his wife

21.0 miles

8/4/11

Little wieser wier = 9"
 Greys Cr. 11 1/2" STEW - OK MORTZ
 washed out, under wood 70 Baards
 Lower end OK. opened Res 1
 Turn, opened SPLITER 2 Turn.

28.0 miles

8/1/11

Little wieser wier - 9" Greys Cr.
 11" MORTZ - 7 3/4" under wood 3"

15.0 miles
