Glenns Ferry, Idaho 83623

PLEASE FIND THE FOLLOWING CALL OUTS FOR THE 2015 IRRIGATION SEASON

- 3/2/15 Went and looked at Bob Hall's water meter
- 3/16/15 Went and checked Paul's reservoir. Dirt in the spill-way and he is almost full. Went up to Paul's diversion - no measuring device there. Check Trail's diversion very little water. Checked Marked Anderson's weir at Dick's old pump station.
- 3/17/15 Talked to Steve Lester, who said to turn Paul off. Paul didn't have measuring device. Turned Paul down to only receive cow water right. Paul called said he was not full. He wanted to leave 100 inches. Asked if he moved dirt out of spill way, he said it was there for 4-wheelers to cross. Paul didn't remove dirt.
- 3/18/15 Adjusted Paul's head gate down, too much for cows. (Rocky)
- 3/20/15 Adjusted head gate down at Paul's. (Juan)
- 4/14/15 Jerry Gorrell called and was out of water. Turned Trail diversion on.
- 4/16/2015 Rocky called and wants whoever does not have measuring device on their system to be shut off. I called Angie Grimm and asked what to do, she said she would talk to her manager and get back to me.
- 4/20/15 Took IDWR around to look at all the points of diversion on Little Canyon Creek.
- 4/25/15 Went with Rob Whitney to look at Paul's new weir on pipe. Weir is not right and doesn't show how much water is coming across the weir.

SECTION 42-606 IDAHO CODE

REPORTS OF WATERMASTERS. All watermasters shall make an annual report to the department of water resources prior to the expiration of the watermaster's appointment for the current year. This report shall show the total amount of water delivered by the watermaster during the preceding year, the amount delivered to each water user, the total expense of delivery and the apportionment of expenses among users and all debits and credits to be carried over to the following year. Such report shall also include records of stream flow the watermaster used or made in the process of distributing water supplies. The director may ask for other information deemed necessary in assuring proper distribution of water supplies within the district. The reports of watermasters to the department of water resources shall be filed and kept in the office of the department.

Instructions For Completing Annual Watermaster's Report

This form has been developed to assist the watermaster in complying with some of the annual reporting requirements of Section 42-606, Idaho Code. The form provides for summary of the amount of water delivered by the watermaster to each user, the total expense of delivery and the apportionment of expenses among water users, including debits and credits. Water distribution and hydrologic information including stream flow records, daily diversion data, water right information and water right priority cut summaries should be presented in a separate water distribution report.

Complete this annual report form of delivery and costs as follows:

- 1) Enter water right holder name, corresponding IDWR water right number or numbers, and corresponding diversion name and/or remarks on page 2;
- 2) Enter the total amount of water delivered to each user as total 24-hour second feet under column 1, page 3. Total **24-hour second feet** is a flow rate expressed in terms of one day or 24 hours. For example, a continuous diversion of 2 cfs over 20 days would equal 40 24-hour second feet.
- 3) Under column 3, page 3, enter the amount of money assessed or billed to each user at the beginning of the year. The assessment may be found in the previous year's adopted budget report.
- 4) In the work space provided on the right hand side of page 3, add up total watermaster salary costs and expenses and enter as 'TOTAL COST'. Then divide this total cost by the total number of 24-hour second feet delivered (sum of column 1) to obtain the cost per 24 hour second feet delivered, or the unit cost factor.
- 5) Under column 2, page 3, multiply the unit cost factor (obtained in step number 4 above) by each user's total 24-hour second feet delivery in column 1 to obtain the total cost against each user.
- 6) For each user, subtract the total cost amount in column 2 from the adopted budget in column 3 and enter the difference either as a credit or debit (negative differences entered as debits, positive differences entered as credits).
- 7) Sign the report before a notary public and submit the original to the appropriate regional office of the Department of Water Resources. Retain one copy for the Water District.

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

State of Idaho)
County of _____) ss

Official Oath

I do solemnly swear or affirm that I will support the Constitution of the United States, the Constitution and laws of the State of Idaho, specifically including the provisions of Section 42-605 and 42-607, Idaho Code, and that I will faithfully discharge all the duties of the office of Watermaster of District _____ for the _____ irrigation season or _____ calendar year of _____ according to the best of my ability. So help me God.

Watermaster
