Dear water users,

The starting date for measuring wells in the Banard. Sund water district was Way 5, 2014. This was about two weeks earlier than 2013. These surveys were taken before peringing and irrigation had begun. The wells were down about an average of 1% from 2013. accordingly a 1% decrease isn't much, but by measuring beguns each year may very well serve as an indicator to the health of the acquifer.

I measured the same wells that I had been assigned in 2012, and while measuring the puraging well of Keith I layd may electric tape ast caught. I last to seet of the tape and more importantly a month of time while waiting on the repair of the tape. I we decided to only measure well that aren't pumping rather than risk the damage of the tape. I a some reason this tape has a difficult time registering depth when the well is pumping. The ald steel tape when chalked gave a good accurate measurement regardless of wheather the well was pumping a static. I his action well probably require me

to contact the irrigator to shut of his pump while I take the measurement which will require extra planning and time; but, short of useing a steel hape is the best that can be done.

Probably the most significant event of this inigation season was the rainy month of august. August, as you know is generally a very dry month but not in 2014. Frequent rain storms caused inigation to drop of, and well levels were better than in previous years for the same time feriod.

Enumerated below are the expenses D incurred while checking the wells of the Bancroft-Sund water district:

Travel (4 wheeler, first up + car) 468.2 mi @ .58 = \$271.56

labor 30 1/2 hrs @ 14.39 = \$438.9.

copies & postage = \$4.8

UPS fet Bellingham WA. = \$19.7

9 volt botting = 36

\$738.66

Best regards,

Graig & huler

Dear Watermaster:

Enclosed herewith is a copy of the Watermaster's Annual Report for the past season.

The same has been prepared by the watermaster and approved by this Department in conformity with Sections 42-610, 42-614 and 42-615, Idaho Code.

During the 1993 legislative session, the legislature enacted a new law which amends Section 42-619(9), Idaho Code and removes the independent financial audit requirement for most state water districts. The new law, referenced by Section 67-450B, Idaho Code (copy enclosed) identifies minimum audit requirements for all local government entities. Under the new statue, the governing body of any local government entity (i.e.; water district) whose annual budget does not exceed fifty thousand dollars (\$50,000) or less does not have to have an independent public account firm conduct a financial audit every few years as previously required by Section 42-619(9).

Please note that only the statutory requirement regarding the independent financial audit has been changed. Districts handling their own fund (i.e.; districts who collect and / or disburse their own funds) must still submit their own statement of the water district's financial affairs at the end of each fiscal year. As recommended in the Department's February 16, 1993 letter and the 1993 Watermaster Handbook, a copy of the financial statement may be submitted either with the annual water masters report or with the minutes of the annual meeting for the ensuing year. An example of an annual financial statement may be found in Appendix C of the 1993 Watermaster Handbook.

The purpose of this letter is to remind all water districts that workers compensation insurance is required for all water district employees. This requirement applies to all water districts in Idaho, regardless of annual budget. Insurance should be applicable at least to all paid water district staff, including the water master as week as well as watermaster assistants, advisory committee, secretary and treasurer. The costs associated with workers compensation insurance is paid directly by the water district and should be considered an expense of the district. For information about obtaining insurance costs etc., please contact the Idaho State Insurance Fund. The State Insurance Fund has offices in Boise, Coeur d'Alene, Idaho Falls, Pocatello and Twin Falls. Water Districts are also reminded that all paid water district staff may be subject to state and federal taxes. These tax requirements will vary depending on salaries and total income of each watermaster or employee. In many water districts, particularly smaller districts with part-time staff, payment of watermaster or each employee. Districts may wish to contact the State Tax Commission or the Internal Revenue Service for information about state and federal withholding taxes.

Sincerely,

Dennis M Dunn

WATER DISTRICT #13T

Dear Secretary:

Enclosed herewith is a copy of the Watermaster's Annual Report for the past season.

The same has been prepared by the watermaster and approved by this Department in conformity with Sections 42-610, 42-614 and 42-615, Idaho Code.

During the 1993 legislative session, the legislature enacted a new law which amends Section 42-619(9), Idaho Code and removes the independent financial audit requirement for most state water districts. The new law, referenced by Section 67-450B, Idaho Code (copy enclosed) identifies minimum audit requirements for all local government entities. Under the new statute, the governing body of any local government entity (i.e.; water district) whose annual budget does not exceed fifty thousand dollars (\$50,000) has no minimum audit requirements under this section. This means that any district which handles its own money and whose budget is fifty thousand dollars (\$50,000) or less does not have to have an independent public account firm conduct a financial audit every few years as previously required by Section 42-619(9).

Please note that only the statutory requirement regarding the independent financial audit has been changed. Districts handling their own fund (i.e.; districts who collect and/or disburse their own funds) must still submit their own statement of the water district's financial affairs at the end of each fiscal year.
