I HEREBY CERTIFY, that	Crais SI	uler	was lawfully app	pointed by me as Water Master
of Water District No. <u>/37</u>			in this report, as herein sv	vorn to, is, to the best of my
knowledge and belief, correct.		Pa-	Director, Departme	nt of Water Resources

January 2, 2016

Craig Dhulu 255 B. 4th So. St. Doda Spring, ID 83276

JAN 0 9 2017

Department of Water Resources Eastern Region

Dear water usus,

The measuring of wells in the Bancropt. Surd water district commenced on May 9, 2016. again this reading was before pumping and irrigation had begun. It appeared that it was againg to be an early spring; however, the weather turned wet and evoluntil about the middle of June. Shufar, the demand for against water was delayed until later in the season.

Of the seven wells I measured, five had water levels above the 2015 level to start the season; however, two wells were below the 2015 level.

as I reported in last years notice the food well was being used to water cattle. This required locating another abandoned well in the same genel area. The state department of water resources decided on a well east and north of Johl Holbrook's residence. I stated measuring this well on July 12th. This well is about 200 feet deep, and is the deepest 1 measure. I rom July to November the depth varied of feet.

The wells generally returned to a more tradit-

itional pottern with the lowest reading occurring in July. On Jour of the wells this was the case, but on the new warren I loyd well and the dancer well the low point was in august.

I'm not sure the reason for the low point in water levels in august in 2015 and 2016, but it could be the cool wet springs in both years. I migators didn't need the water until later in the summer, and the crops did well with the plentiful rainfall larly in the proving season.

herended below are my expenses for 2016 that were incurred while monitoring water levels on wells located within the Bancrot-3-und water district.

Showel (4 which + p 4.) 440.9 mi @ .54 = \$ 238.09

labor 30.5 hrs@\$14.95 hr = 455.98

unitit for drilly hole in copped well \$38.15

copies + postage

\$ 4.92 \$ 737.14

Best regards,

Craig Shulu

Deny Rindlishaber

WATER DISTRICT #13T

Dear Watermaster:

Enclosed herewith is a copy of the Watermaster's Annual Report for the past season.

The same has been prepared by the watermaster and approved by this Department in conformity with Sections 42-610, 42-614 and 42-615, Idaho Code.

During the 1993 legislative session, the legislature enacted a new law which amends Section 42-619(9), Idaho Code and removes the independent financial audit requirement for most state water districts. The new law, referenced by Section 67-450B, Idaho Code (copy enclosed) identifies minimum audit requirements for all local government entities. Under the new statute, the governing body of any local government entity (i.e.; water district) whose annual budget does not exceed one hundred thousand dollars (\$100,000) has no minimum audit requirements under this section. This means that any district which handles its own money and whose budget is one hundred thousand dollars (\$100,000) or less does not have to have an independent public account firm conduct a financial audit every few years as previously required by Section 42-619(9).

Please note that only the statutory requirement regarding the independent financial audit has been changed. Districts handling their own fund (i.e.; districts who collect and / or disburse their own funds) must still submit their own statement of the water district's financial affairs at the end of each fiscal year. As recommended in the Department's February 16, 1993 letter and the 1993 Watermaster Handbook, a copy of the financial statement may be submitted either with the annual water masters report or with the minutes of the annual meeting for the ensuing year. An example of an annual financial statement may be found in Appendix C of the 1993 Watermaster Handbook.

The purpose of this letter is to remind all water districts that workers compensation insurance is required for all water district employees. This requirement applies to all water districts in Idaho, regardless of annual budget. Insurance should be applicable at least to all paid water district staff, including the water master as week as well as watermaster assistants, advisory committee, secretary and treasurer. The costs associated with workers compensation insurance is paid directly by the water district and should be considered an expense of the district. For information about obtaining insurance costs etc., please contact the Idaho State Insurance Fund. The State Insurance Fund has offices in Boise, Coeur d'Alene, Idaho Falls, Pocatello and Twin Falls. Water Districts are also reminded that all paid water district staff may be subject to state and federal taxes. These tax requirements will vary depending on salaries and total income of each watermaster or employee. In many water districts, particularly smaller districts with part-time staff, payment of watermaster or each employee. Districts may wish to contact the State Tax Commission or the Internal Revenue Service for information about state and federal withholding taxes.

Sincerely,

Sharla Cox

Administrative Assistant
