Thanks Brian. I will file this in the WD75D file. I sent an oath of office form to Dave via e-mail and will see to his appointment as assistant ASAP upon receiving the completed oath from him. Appointment of Dave as assistant will allow him to make adjustments to the Ellis lateral head gate from the stream if and when necessary, under your direction of course.

FYI, see attached order appointing lateral manager for Ellis Lateral. You should receive a hard copy in the mail.

Tim

Tim,

I would like to appoint Dave McFarland to the position of Assistant Watermaster. The reason for this action is to give him the ability to adjust POD headgate(s) under the Watermasters direction, as he will be acting as a lateral manager for a ditch with multiple users.

Thanks  
District 75D Watermaster  
Brian Keller
