Subject: RE: BDA Removal Deadline Extension - EF Fish CK

Chris,

I received and reviewed your email. I left a message with the watermaster, Jerry Weaver, advising him I received your email and understood the parties are continuing with some agreement, so no action is necessary today in terms of removing the structures we identified last fall. As you know, my last letter to Jerry dated February 5, 2020 extended the deadline for removal of the structures to today, April 1. I further advised Jerry to delay any action on this matter until further notice is given.

I do not plan to send any formal notice to the watermaster or parties regarding this matter and the continuous moving deadline. I feel my phone message to him should suffice for now.

Thanks for your communication.

Tim Luke

Tim,

FCID and TNC are working on an agreement to breach the structures. With the current issues, it's taking more time to get reviews and signatures. We'll touch base with you on or before May 15, hopefully with an agreement in place.

Thanks,

Chris

Subject: BDA Removal Deadline Extension - EF Fish CK

Chris,

Please find attached a letter extending the deadline for removal of 11 BDA structures on East Fork Fish Creek from February 4, 2020 to April 1, 2020. A hard copy of this letter will be sent to WD37U watermaster Jerry Weaver. By copy of this email to Lacey Peterson, WD37U secretary, I am asking that she deliver this letter immediately to Mr. Weaver since he does not have email access.

Thanks again for assisting with the ongoing coordination between your client, Fish Creek Irrigation District, and The Nature Conservancy, to resolve the concerns regarding BDA installations on East Fork Fish Creek.

Regards,

Tim Luke
